Government

Emergency Notification System

Communicate Quickly

Communication is vital to all successful organizations, but is especially important to government administrators during emergency situations. Being able to quickly and easily send messages to employees ensures their safety, saves time and taxpayer dollars, and keeps the community members safe and secure. Inclement weather, natural disasters, fires and power outages all require immediate and appropriate response plans. With an Emergency Notification System, government organizations have the tools necessary to manage the crisis and achieve the best possible outcome for both employees and constituents.

Applications

Applications are numerous and include:

➢ Medical emergency coordination

➢ Power failures

➢ Inclement weather

➢ Safety tests and drills

➢ Chemical alerts

➢ Shut-off notices

➢ Meeting notifications

➢ Closings and cancellations

➢ "All Clear" notifications for water contamination, etc.

Messaging Examples

The following actual messages from our government users demonstrate the various ways the emergency notification system can be utilized:

Restored Service
At approximately 9 p.m., the waterline break was repaired. Water service is being restored to the service area. It will take approximately two to three hours to fully restore water pressure. A boil water advisory is in effect for the entire service area.

Shut Off Notice
Attention! This call serves as a notice that your account is scheduled for shut off. Call to render payment.

Messaging Examples (continued)

Emergency Notifications

This is an emergency notification message for members of the Heavy Rescue Team. All team members that are available need to get your gear and respond to fire station ████ as soon as possible. You should bring enough supplies to support yourself for one week.

Stay on the Cutting Edge

The quicker messages can be sent during emergency situations often amounts to the difference between life and death. By incorporating Message911's functionalities into your organization, you'll stay on the cutting edge of technology and improve your ability to protect your employees and better serve your constituents.

Testimonials

I am the Director of an Alabama Mutual Aid Rescue Team for the Florence Fire Department. We have 52 members on our team that I have to keep updated on various types of information from training classes and exercises to current events taking place in our region and sometimes the state. I also use Message911 to send emergency notifications to our team members. Nothing else has been as easy-to-use that also provides me a record of the message status like Message911 does. It is a great asset to our department.

Tim Anerton
City of Florence Fire Rescue

We have a very good relationship with the Message911 team. After looking at several systems, I knew that this was the company for us. With Message911 we are more than just another customer; we are a valued client.

Richard Filipek
Raleigh County 911

The Message911 system has provided the Civil Air Patrol a way to log-in or call-in with a moment's notice to activate a search and rescue mission for a plane that has gone down or off-course or to search for missing persons. We are confident that our volunteers are of the highest integrity and are able to respond quickly to our requests for assistance. Time is of the utmost importance when this situation occurs, and Message911 has delivered every time.

Lieutenant Colonel John Neal
Alabama Wing, Civil Air Patrol

Solutions

Message911™ is a phone, web and cloud-accessible emergency notification system that allows large and small organizations to communicate to groups of people during emergency situations through pre-recorded and original messages, while providing real-time tracking of communication. Messages are provided through phone, email, SMS and fax. In addition, Message911 provides 24-hour client service support and is simple to use during real-world emergency situations.

Accounts can be tailored to meet each client's specific needs and optimized to reflect their organizational structure. Simple, quick and reliable, Message911 offers emergency notification capabilities for an affordable low cost and can scale to meet client demands and requirements seamlessly.

Message911's system is designed for intuitive use and can be learned in minutes. It is interoperable with multiple systems and has an abundant capacity, capable of easily fulfilling all of communication needs. Automatic daily backups with redundant systems from power to processors ensure reliability--meaning our system works when you need it. By providing a central point of communication that is up to 60% more affordable than the average yearly desktop system, Message911 is a proven service for outsourcing all of your emergency communication needs.

About Message911

Mission Statement
Message911's purpose is to help people communicate quickly, effectively and easily during emergency situations by providing a communication tool that can be individually tailored to users' needs.

Company
Message911's current client portfolio and over 15 years of experience establish a solid foundation of market knowledge, expertise, methodologies and best practice experience.

Research
As a leader in the communication industry, Message911 keeps track of current industry trends and peer research in order to provide the most up-to-date and effective services for its clients.

About CallingPost Communications, Inc.

Message911 is an emergency communication solution of CallingPost Communications, Inc. -- a company that provides a cost-effective, fast, convenient and reliable way to quickly deliver important telephone messages.

Our company was founded in 1995 by Phil Alexander, a former engineer in the nuclear power industry, who in frustration diagrammed a simple telecom software solution to simplify his personal life. After pioneering the technology, Alexander donated the service to churches and non-profits, ultimately taking his invention to market, which eventually led to the birth of CallingPost Communications, Inc.

Today, CallingPost™ has expanded its product line to include customized and branded high-speed messaging solutions for emergency notification, business professionals and personal life management. Additionally, it has developed an exceptional fundraising solution for schools that enables educators to significantly offset the cost of school-to-home communication.

CallingPost messaging solutions are available in all areas of the United States, Canada and Puerto Rico.
