

Communicate Quickly

Communication is vital to all successful businesses and organizations, but is especially important during emergency situations. Being able to quickly and easily send messages to employees both ensures their safety and saves the company time and money. Inclement weather, natural disasters, fires and power outages all require immediate and appropriate response plans. With an Emergency Response Notification system, senior management has the tools necessary to manage the situation and achieve the best possible outcome for both employees and clients.

Applications

Applications are numerous and include:

- Emergency management
- Power failure notifications
- Inclement weather alerts
- Safety drills
- Fire evacuations
- Cancellations and closings
- Delayed openings
- Meeting notifications

Messaging Examples

The following actual messages from our legal industry users demonstrate the various ways the emergency notification system can be utilized:

Emergency

ALERT. The [REDACTED] business contingency plan has been implemented. ALERT. Use the emergency contact card that you were issued. Immediately contact your manager with the following information: 1. Your current location. 2. If you are injured.

Research

As a leader in the communication industry, Message911 keeps track of current industry trends and peer research in order to provide the most up-to-date and effective services for its clients.

About CallingPost Communications, Inc.

Message911 is an emergency communication solution of CallingPost Communications, Inc. -- a company that provides a cost-effective, fast, convenient and reliable way to quickly deliver important telephone messages.

Our company was founded in 1995 by Phil Alexander, a former engineer in the nuclear power industry, who in frustration diagrammed a simple telecom software solution to simplify his personal life. After pioneering the technology, Alexander donated the service to churches and non-profits, ultimately taking his invention to market, which eventually led to the birth of CallingPost Communications, Inc.

Today, CallingPost™ has expanded its product line to include customized and branded high-speed messaging solutions for emergency notification, business professionals and personal life management. Additionally, it has developed an exceptional fundraising solution for schools that enables educators to significantly offset the cost of school-to-home communication.

CallingPost messaging solutions are available in all areas of the United States, Canada and Puerto Rico.
